DISINFECTANT APPLICATION TOOL

MODEL #74340

KEY FEATURES:

- Ideal for fast, high-volume disinfecting stations.
- Full liquid and air ratio control allows for consistent, controlled application.
- Forced air allows disinfectant to penetrate porous surfaces (carpet, upholstery)
- Ten-foot service hose for mobility around the vehicle.
- Avoids the need to bring liquid into the vehicle, reducing the potential for spills.
- Service hose can adapt to use with 1 to 5 gallon supply containers.
- Light-weight applicator. Designed to easily get in and out of vehicles.
- No need for electricity. Operates on compressed air.
- Durable metal design with no moving parts to wear out.
- Effective spray distance 1- 7 feet.

SPECIFICATIONS:

Weight (dry): 9 ounces

Power: Compressed Air

Service Hose: 10 Feet

Warning: Not for use with bleach or flammable liquids
