

RODENT DETERRENT

BANISH RODENT DETERRENT - #01601

Formulated with essential oils that deliver a smell and taste developed to deter mice, rats, and other rodents from burrowing into a vehicle's engine compartment and undercarriage. The heat of a recently used vehicle can last up to 24 hours, making it an inviting place for various rodents to seek warmth and begin nesting. By applying BANISH to these areas, a barrier is created to help keep away rodents and their offspring.

PRODUCT BENEFITS:

- Developed to prevent rodent entry, nesting, and foraging.
- Easy and fast application
- Contains natural ingredients
