

ENHANCES GLOSS, DEPTH, & SHINE

VEHICLE APPEARANCE PRODUCTS PART #21083

KEY FEATURES:

- *SIO2 CERAMIC DETAILING SPRAY*
- *SAFE FOR ALL VEHICLE SURFACES*
- *ENHANCES GLOSS, DEPTH, & SHINE*
- *EXTENDS THE PROTECTION OF WAXES & SEALANTS*
- *PROTECTS AGAINST UV RAYS, AND CONTAMINATION*

SURFACE is a specialized blend of anti-static and ceramic agents designed to produce a water beading, brilliant, long-lasting shine. MP Surface® uses a combination of UV filters and stabilizers to guard against harmful UV rays and environmental contaminants such as brake dust, dirt, dust, and industrial fallout. Surface® bonds with vehicles clear coat to create a durable, hydrophobic surface, and it's safe for all vehicle surfaces, including wheels and trim.

DIRECTIONS:

To ensure an ideal bond, we recommend applying Surface® to a clean, dry, and smooth surface. Spray MP Surface® onto painted surfaces, one panel at a time. Distribute evenly using a clean microfiber towel and buff to a smooth shiny surface. For vehicles already protected by MP Armour Ceramic Coating use MP Surface® to revitalize and extend shine and hydrophobic properties of MP Armour®.
