

# MOTOR OIL CONDITIONER

AUTOMOTIVE ADDITIVES & LUBRICANTS - #0101

## OUTSTANDING FEATURES

- Improves Performance – specially formulated to reduce friction and wear.
- Effective – protects new engines during break-in and start up.
- Reduces Friction – increases lubricating power of oil.
- Helps Keep Engines Clean – contains dispersants and detergents to help prevent sludge deposits.
- Versatile – can be used in all types of internal-combustion engines.
- Compatibility - Designed for use in conventional and synthetic oils.
- Contains no solvents or chlorinated materials.

## DESCRIPTION

Scientifically formulated to increase performance by reducing, friction and wear. MOC® Motor Oil Conditioner contains dispersants and detergents to help prevent sludge buildup. The product is carried by motor oil to where it lubricates internal parts to create a low-friction surface. This reduction in friction can protect new engines during break-in, and start-ups. It may be used in all internal-combustion engines, including rotary and diesel.

## APPLICATION

Pour entire contents into crankcase with each oil change.

## SPECIFICATIONS

<u>Test</u>	<u>ASTM Method</u>	<u>Typical Results</u>
Appearance	-	Oil
Color	-	Brown
Odor	-	Petroleum
Specific Gravity	ASTM D1298	0.88
Density, U.S. (lbs/gal) @ 68°F (calculated)	-	7.32
Viscosity, cSt @ 100°C	D445	~4
Boiling Point (°F)	D1120	>400
Flash Point (°F) (based on components)	D93	>248

## PACKAGING

**Fill:** 11 oz.

**Case Quantity:** 24

**Case Weight:** 21 lbs.
