

# POWER STEERING FLUID CONDITIONER

AUTOMOTIVE ADDITIVES & LUBRICANTS - #0115

## OUTSTANDING FEATURES

- Helps prevent squeals and chatter in power-steering systems.
- Helps reduce pump wear and noise.
- Conditions hardened and dry seals and helps prevent internal leaks.
- Compatible with all domestic and most foreign vehicles with power-steering units.
- Ideal for new and used vehicles.

## DESCRIPTION

A blend of synthetic base oils, friction modifiers, anti-foam agents and seal conditioners. It is formulated to reduce friction and wear in the power-steering pump, valves, and springs. This multi-functional product also helps eliminate squeals and chatter due to foaming while conditioning seals against drying to help prevent leaks.

## APPLICATION

Pour contents into power-steering reservoir. **DO NOT OVERFILL** .

## SPECIFICATIONS

Test	ASTM Method	Typical Results
Appearance	-	Clear oil
Color	-	Amber
Density (g/mL)	D4052	0.85
Density, U.S. (lbs/gal), calculated	-	7.05
Viscosity, cSt @ 100°C	D445	5-6
Flash Point(°F), based on components	-	≥273

## PACKAGING

**Fill:** 6 oz.

**Case Quantity:** 24

**Case Weight:** 11 lbs.
