POWER STEERING SERVICE SOLUTION - RED

AUTOMOTIVE ADDITIVES & LUBRICANTS - #0156

OUTSTANDING FEATURES

- Reduces friction that can wear out the pump, valves, and gears.
- Conditions seals and hoses to help prevent cracks and leaks.
- Helps extend system life by reducing wear on internal components.
- Helps reduce squeals and chatter due to foaming.
- Outstanding cold weather performance.

DESCRIPTION

A fortified power-steering fluid blend that is used in conjunction with a MOC® Power-Steering Fluid Exchanger. The formulation utilizes a high-quality base fluid which ensures increased oxidation stability and outstanding low temperature performance. The combination of this base oil with a top-quality viscosity modifier ensures excellent resistance to breakdown due to excessive shearing and pressure in power-steering systems. The solution also contains additional components which provide detergency, wear protection, rust inhibition, seal protection and anti-foaming characteristics. The formula meets O.E.M. Power Steering fluid performance requirements for Ford, GM, Chrysler, and Nissan.

APPLICATION

MOC® Power-Steering Service Solution-Red #0156 should only be used with a MOC® Power-Steering Fluid Exchanger. 1. Follow the MOC® Power-Steering Fluid Exchanger instructions to perform the exchange process. 2. Dispose of used fluid in accordance with local, state, and federal regulations.
