

DESCRIPTION

Created specifically to give the latest hybrid engines the extra attention they need to perform at their best. Adding **BOOST** Fuel Stabilizer to the fuel tank can keep gasoline fresh, and prevent corrosion, moisture damage, and carbon deposits while it restores power, performance, and fuel efficiency.

APPLICATION

Pour entire contents of bottle into fuel tank. Caution: make sure tank has a minimum of eight gallons of gas. Less dilution may cause erratically-running engine during the cleaning cycle.

SPECIFICATIONS

Test	ASTM Method	Typical Results
Appearance	-	Petroleum Distillates
Color	-	Clear, Colorless
Odor	-	Solvent
Density, U.S. (g/ml) @ 68°F	D4052	~0.86
Density, U.S. (Ibs./gal) @ 68°F (calculated)	-	~7.2
Boiling Point (°F)	-	≥311
Flash Point (°F) (based on components)	-	~111
% V.O.C.	-	28.5

PACKAGING

<u>Fill:</u> 10 oz.

Case Quantity: 24 Bottles

Case Weight: 12 lbs.
