

# UNIVERSAL EXTENDED LIFE COOLANT

AUTOMOTIVE ADDITIVES - #04503

## OUTSTANDING FEATURES

- Protects against freeze-ups to -34° F
- Protects against summer boil-overs to 265° F
- Protects against rust & corrosion
- Protects all cooling system metals, including aluminum
- Compatible with other Coolant/Antifreeze formulations
- Hybrid Organic Acid Technology (HOAT) 5 year / 150,000 mile protection

## DESCRIPTION

A premix, 50/50 blend coolant with a premium ethylene glycol base and a high-performance anti-corrosion additive package that is designed to protect all cooling system metals for 5 Years / 150,000 miles. Our Hybrid Organic Acid Technology (HOAT) formulation is silicate and borate free. It meets the protection requirements for American, and Asian cars and light trucks, including GM (Dexcool). The versatile formula will mix with all coolant / antifreeze formulations.

## APPLICATION

Follow the vehicle's owner manual for instructions and dilution percentages before adding or changing antifreeze/coolant. Note: Color may change and performance may be impacted if mixed with traditional green antifreeze /coolant.

## SPECIFICATIONS

<u>Test</u>	<u>ASTM Method</u>	<u>Typical Results</u>
Appearance	-	Clear & Bright
Color	-	Fluorescent Yellow
Odor	-	Mild
Specific Gravity @ 60/60°F	D1122	1.13
Freezing point, 50% V/V	D1177	-34 °F / -36 °C
Boiling point, 50% V/V	D1120	227 °F / 108 °C
pH, 50% V/V	D1287	8.0 - 9.0
Water Mass %	D1123	2.3

## PAKAGING

**Fill:** 1 gal.

**Case Quantity:** 6

**Case Weight:** 48 lbs.
