Silicone Lubricant

1003

Aerosols

Description:

MOC® Silicone Lubricant #1003 is a multipurpose, liquid lubricant. It was formulated to provide a clean, non-greasy, lubricating film. This product provides excellent "slide-and-glide" properties which reduces binding and squeaks caused by friction. It prevents bonding or build-up of paint, wax, ink, and adhesives on treated surfaces. Also, this product will seal out moisture to help prevent rust and corrosion on metal surfaces. **MOC® Silicone Lubricant** may be applied to metal, rubber, plastic, nylon, wood and vinyl. **Typical applications are glass installation, windshield wiper assemblies, rubber molding, belts, hinges, slides, springs and latches**

Outstanding Features:

- **No greasy residue** – provides a non-staining, lubricating film.
- **Reduces friction** – has excellent "slide-and-glide" properties.
- Creates a barrier to prevent bonding or build-up of wax, ink, paint and adhesives on treated surfaces.
- **Rustproof** – protects metal surfaces from rust and corrosion.
- Repels water and seals out moisture.
- **Versatile** – may be used on rubber, plastic, nylon, vinyl, wood, and metal to prevent binding, sticking and deterioration.
- **Low V.O.C. formula.**

Application:

Shake can well before using. Holding can 4 to 8 inches from surface, spray area. Use extension tube for hard-to-reach areas.

Specifications:

<u>Test</u>	<u>ASTM Method</u>	<u>Typical Results</u>
Appearance	-	Clear Liquid
Color (liquid portion)	-	Colorless to Pale Yellow
Odor	-	Solvent
Specific Gravity @ 60°F	D1298	0.75
Density, U.S. (lbs/gal) @ 60°F	D1250	6.26
Flammability, NFPA 30B	-	Level 3 Aerosol

Packaging: Fill: 10 oz.

Case Quantity: 12 cans

Case Weight: 14 lbs.
