

MEGA BLUE™

DRESSINGS - #5108

OUTSTANDING FEATURES

- Protects and restores nonporous surfaces on vehicle exteriors.
- Leaves a durable, water-repellent finish.
- High silicone content for exceptional gloss on tires and trim.

PERFORMANCE RATING - Gloss - 9 • Durability - 8

DESCRIPTION

A fast-drying, solvent-based dressing that creates an ultra-high gloss and protective barrier on rubber, vinyl and plastic surfaces such as exterior trim, tires, and molding.

APPLICATION

Exterior Trim: 1.) Spray product on sponge applicator pad. 2.) Apply product to vinyl, plastic and rubber surfaces with pad. 3.) Allow to dry, or wipe dry with clean towel.

Tires: 1.) Prior to applying product, tire surface should be clean, dry and free of any debris. 2.) Either spray product on sponge applicator pad and wipe on tire or using a trigger sprayer, apply a fine mist to the surface. 3.) Allow product to thoroughly dry and wipe off excess product before moving vehicle. Important: Improper application of solvent-based dressing on tires may result in "sling" of excess product, which can stain adjacent painted surfaces. Always wipe excess product from tires.

SPECIFICATIONS

Appearance	-Mobile Liquid	Body Shop Safe - NO
Color	- Light Blue	VOC Complaint - NO
Odor	-Watermelon	Biodegradable - NO

Test	ASTM Method	Typical Results
Specific Gravity @ 68°F	D4052	0.79
Density, U.S. (lbs/gal) (calculated)	-	6.60
