

TUNNEL WASH

AUTOMOTIVE SHAMPOO - #6268

PERFORMANCE

Foaming - 7 • Concentration - 5

OUTSTANDING FEATURES

- Very-high-foaming car-wash liquid
- Will not leave streaks when used properly
- Designed to be used in proportioning system

DESCRIPTION

A thin, orange liquid with a soapy aroma. It is an economical, concentrated shampoo that produces a rich, long-lasting foam for use on vehicles, trailers, boats, or motor homes. This product is thin enough to be used through proportioning systems and car-wash tunnels.

APPLICATION

Machine Use: Set proportioning or tunnel system to desired dilution setting. Place pickup hose in drum. Operate equipment according to manufacturer's directions.

Hand Use: Use 1 part concentrate for 100 parts water (approximately 2 oz. for each 1 gallon of water). Adjust dilution to desired strength for extremely dirty conditions. Rinse vehicle thoroughly. Apply solution generously, using a mitt. Rinse well. Wipe dry with a clean chamois. For best results, surface should be cool and out of direct sunlight.

SPECIFICATIONS

Appearance	Liquid	Body Shop Safe - YES
Color	Orange	VOC Compliant - YES
Odor	Soap	Biodegradable - NO
Test	ASTM Method	Typical Results
Density, U.S. (lbs/gal) @ 68°F	D4052	~8.60
pH	E 70	~9.0
RI		~9.0
Viscosity, Brookfield, cP		~200
