ADHESIVE PROTECTIVE FILM

PROTECT YOUR CUSTOMERS AND YOUR EMPLOYEES

Our temporary protective film can protect the high-touch areas such as, handles, shifter, and window controls, on a customer's vehicle during the service process. Applying this film during the write up process provides safety and peace-of-mind for you, your employees and your customers. These perforated tear-off sheets easily dispense from roll without the need for a stand or special tool. Safe to use on multiple surfaces and removes cleanly without any leaving any sticky residue. Film will protect covered surfaces from UV damage for up to 60 days. *Roll Dimensions : 6" x 600 ft, perforated every 7" (over 1,000 sheets per roll)*

After cleaning the high-touch points as vehicles arrive for service, we recommend that the film be applied to the following areas:

- ✓ *Outside door handle*
- ✓ *Inside door handle*
- ✓ *Shifter (x 2 - depending on size of shifter)*
- ✓ *Window controls*
- ✓ *Horn*
- ✓ *Keys*
- ✓ *Armrest*
